

# Izabel Ruseva

**Date of birth:** 15 Dec 2002 | **Nationality:** Bulgarian | **Phone number:**

(+359) 888817561 (Home) | **Email address:** [Rusevalzabel@gmail.com](mailto:Rusevalzabel@gmail.com) | **LinkedIn:**

[linkedin.com/in/izabel-ruseva-201726222](https://linkedin.com/in/izabel-ruseva-201726222) | **Address:** Sofia, Bulgaria (Home)

## WORK EXPERIENCE

APR 2023 – CURRENT Sofia, Bulgaria

### SOFTWARE DEVELOPER ZETTAHOST

#### Main Activities:

- **Web Development:** Design and develop user-friendly, responsive, and visually appealing web applications and websites using HTML, CSS, and JavaScript.
- **User Interface (UI) Design:** Create and optimize user interfaces to enhance user experience and ensure intuitive navigation.
- **Cross-Browser Compatibility:** Ensure that web applications are compatible with various web browsers and resolve compatibility issues.
- **Responsive Design:** Implement responsive design principles to ensure seamless user experiences across different devices and screen sizes.
- **Optimization:** Optimize web applications for performance, speed, and loading times by reducing unnecessary code and assets.
- **Testing and Debugging:** Conduct thorough testing and debugging of frontend components to identify and rectify issues.
- **Version Control:** Utilize version control systems like Git to manage and track changes in code and collaborate with other developers effectively.
- **Frameworks and Libraries:** Use frontend frameworks and libraries like React and Svelte to streamline development and improve functionality.
- **Accessibility:** Ensure web applications comply with accessibility standards (WCAG) to make them usable for individuals with disabilities.
- **Collaboration:** Collaborate closely with backend developers, designers, and other team members to ensure seamless integration of frontend and backend components.
- **Continuous Learning:** Stay up-to-date with the latest frontend development trends, tools, and technologies to incorporate best practices.

#### Responsibilities:

- **Coding:** Write clean, maintainable, and efficient code following best coding practices and standards.
- **Design Integration:** Translate design mockups and wireframes into functional web applications, ensuring pixel-perfect implementation.
- **Performance Optimization:** Identify and address performance bottlenecks, improving website loading times and responsiveness.
- **Bug Resolution:** Quickly identify and resolve frontend issues, ensuring a smooth user experience.
- **Documentation:** Maintain comprehensive documentation for code, processes, and guidelines for future reference and team collaboration.
- **Quality Assurance:** Perform thorough testing to verify that the frontend components meet quality standards and are free from defects.
- **Collaborative Workflow:** Work effectively within Agile or other development methodologies, participating in sprint planning and regular team meetings.
- **Client Interaction:** Communicate with clients or project stakeholders to gather requirements, provide updates, and address concerns.
- **Code Reviews:** Participate in code reviews to ensure code quality and share knowledge with other team members.
- **Responsive Design:** Implement responsive design techniques to ensure optimal user experience on various devices.
- **User-Centered Approach:** Focus on creating web applications that are user-centric, easy to navigate, and visually appealing.
- **Security Awareness:** Maintain security best practices to safeguard web applications from common vulnerabilities.
